Perry Kinkaide, MSc, PhD, CMC

GUEST SPEAKER

Dr. Perry Kinkaide is the Founder (2005) and Past-President of the Alberta Council of Technologies Society.

Perry is devoted to the development of the Alberta Council of Technologies Society. Since 2001 Perry's retirement has been largely devoted to the development of the Alberta Council of Technologies Society. He advocates, educates, and celebrates the commercialization of emerging technologies, contributing to diversifying Alberta's economy.

He is a co-founder of several Alberta technology alliances for advancing cell therapy, cleantech, and fusion technology.

Perry serves as a mentor for young entrepreneurs and provides perspectives on economic diversification and the social and economic implications of emerging technologies.

Perry was recognized in the July 2007 edition of Alberta Venture magazine as one of the 50 "most influential" Albertans.

Q
A

What was the the coldest temperature in Edmonton?

The record coldest temperature in Edmonton was -49°C (-56.9°F), on January 19 and 21, 1886

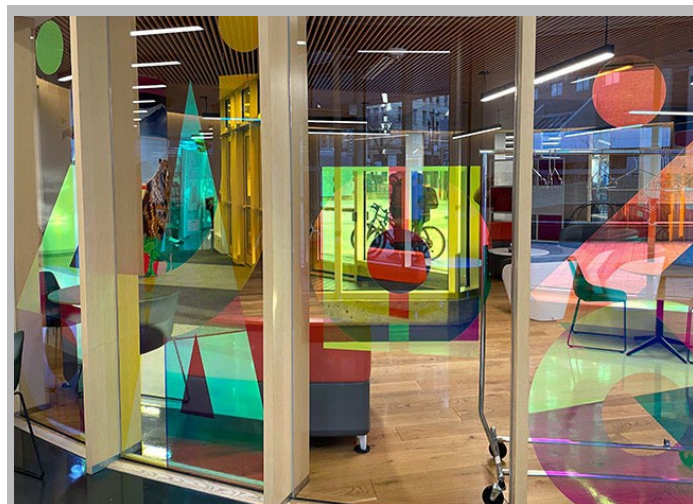

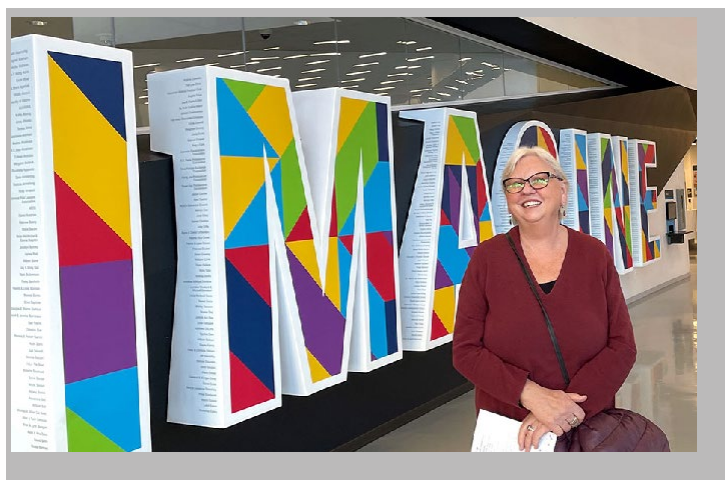

Stanley Milner Library Tour

After touring the new library it has certainly changed my view what libraries of the 21st century can be. It's amazing all the activities the library offers. You can do 3d printing, laser cutting, record music and mix the sound. They have a kitchen and offer cooking classes (in a library)! Wood working, gaming, and the Thunder Bird house for smudging, and the list goes on and on and on. They feature a

2 story interactive screen the largest in North America. If you want to explore this amazing place you certainly won't be disappointed.

Oh... did I mention they have large print books, great for us getting on in years.

Fact

The most productive day of the week is Tuesday with Friday afternoon the least.
