

## Probis Club of Central Edmonton

March 2016

Editor: Ken Hoffman

### **Speaker: March 21– Nicole Spears, Alberta Environment**

At the March meeting, Nicole Spears, representative from Alberta Environment discussed initiatives related to the Government's objective to reduce Alberta's carbon emissions. Nicole provided us with insight into relevant Government programs and Alberta's contribution to carbon emissions in Canada and the world. Members demonstrated their interest in the subject through considerable number of questions asked. Nicole is to be commended for her ability to answer them and knowledge demonstrated.

### **Tour: March 28– Northland's track and casino**

We were treated with an opening presentation, breakfast buffet and \$5 coupon to use at our pleasure in the facility. Each person was then provided the opportunity to check out the facility at their own pace. There were three main areas in the facility, these were the casino, simulcast screens and the track. While there were no races on the day we were there, we were able to observe horses being exercised. It is a very interesting facility and the visit was enjoyed by gamblers and those who decided not to indulge.
